PROFESSIONAL SUMMARY

Final-year Mathematical Engineering student at Yıldız Technical University with a focus on applied mathematics, especially probability and statistics. Gained practical experience in AI research, data science, business development, and project management. Interested in roles related to data science, quantitative analysis, machine learning, and management sciences.

EDUCATION

Yıldız Technical University | Istanbul, Türkiye
B.Sc. in Mathematical Engineering Expected: June 2026
Focus Area: Numerical Analysis, Optimization Techniques, Operations Research, Financial Mathematics, Algebra, Differential Equations, Mathematical Modeling, Statistics, Machine Learning
Thesis: *Dynamic Portfolio Optimization Using Reinforcement Learning (In Progress)*

CIMPA – European Mathematical Society
Stochastic Analysis Summer School

- Advanced topics: Brownian Motion, Martingale Theory, Itô Calculus, Stochastic Differential Equations (SDEs), and their applications in mathematical finance and engineering.

Atlas Language School | Dublin, Ireland
English Language Program July 2023 – September 2023

EXPERIENCE

Turkcell | Telecommunications & Digital Services
Strategy & Business Development Intern January 2026 – Present

- Supported the strategy team by conducting market and technology research on connectivity, satellite technologies, and digital service trends.
- Prepared competitive landscape summaries to contribute to ongoing business development initiatives.
- Performed benchmarking analyses and tracked key performance indicators (KPIs) to evaluate business performance against industry standards.

FetalIST | Healthcare AI
Data Science & Analytics Intern August 2025 – October 2025

- Worked on machine learning models for the analysis and segmentation of medical imagery.
- Built data pipelines for collecting, cleaning, and preprocessing raw medical image datasets, gaining experience in data mining and data management.
- Adapted to the challenges of managing and processing large-scale healthcare data, including storage, organization, and quality assurance of high-volume datasets.

TNC Group | Management Consulting
Project Management Intern June 2025 – July 2025

- Supported project planning, timeline tracking, and stakeholder communication throughout the internship period.

Anadolu Sigorta | Insurance & Risk Management
Youth Senate Member March 2024 – June 2024

- Gained firsthand exposure to insurance industry fundamentals and risk management principles through workshops and seminars.

PROJECTS

Financial Analysis Tool – Stock Price Forecasting | Group Project, Mathematical Engineering

- Built a financial analysis tool to forecast and visualize potential stock price scenarios.

Mars Rover Vehicle | Yıldız Rover Team – NASA University Rover Challenge Finalist

- Served in the organization team within a multidisciplinary engineering group developing an autonomous Mars rover for the international University Rover Challenge (URC).
- Earned the University Rover Challenge certificate; contributed to team coordination, logistics, and operational support during competition preparation.

CERTIFICATIONS & TRAINING

- **Google AI Technology Academy** – Artificial Intelligence Program (Oct 2024 – July 2025)
- **CIMPA-EMS Summer School** – Stochastic Analysis
- Google Project Management Certificate
- **Machine Learning for Health** – BTK Academy
- **Data Science Certificate** – BTK Academy
- **Deep Learning Certificate** – MATLAB
- Google Datathon Participant

TECHNICAL SKILLS

Programming: Python, MATLAB, SQL
Libraries & Frameworks: PyTorch, TensorFlow, scikit-learn, NumPy, pandas, matplotlib
Tools & Platforms: Jupyter Notebook, MS Office
Core Competencies: Machine Learning, Computer Vision, Stochastic Modeling, Data Analysis, Statistical Inference
Languages: Turkish (Native), English (Professional Working Proficiency)

ACTIVITIES & ACHIEVEMENTS

- **NASA University Rover Challenge Finalist** – Yıldız Rover Team
- **Teknofest Finalist** – Engineering Case Study Competition
- **YTU SPARK** – Active Member
- **Mathematics Festival 2024** – Participant & Organizer
- **Mathematics Tutor** – 2021–2026 (Ongoing)
- **Yıldız Best** – Award Recipient
